

## Recreate Any Crime Scene in 360°

Complete 360° Building Documentation **New from Virtual Pictures Corp.**

### Affordable 360° Camera Kits for Law Enforcement

For over 14 years, VPiX® has been the worldwide leader in virtual tour camera kits for real estate. Now with CSI:360 -- we have taken our proven 360° camera kits, software and training to help law enforcement agencies recreate crime scenes.

### Homeland Security Building Documentation

There are many state and federal grants that can help you with funding to purchase the required equipment and begin 360 documenting your local schools and federal buildings. Our VPiX CSI:360 edition software lets you geo-code Google maps and 3D radar push pin markers. You can upload custom floor plans, MP3 narration and even custom hot spot graphics. For active cases that cannot be hosted over the Internet, you can build them online then save them for off-line and burn your cases with 360 tours to CD-ROM with just a few mouse clicks.

### Perfect for the Electronic Courtroom: VPiX CSI:360

It's not quite CSI:Miami... but it's as close as it gets. VPiX CSI:360 lets you recreate crime scenes with complete, 360 virtual walk-through experiences. Zoom in on evidence markers and view the crime scene as if you were actually there. You can add GPS information to any crime scene 360 panorama, too. And best of all... Learning CSI:360 takes all of 45 minutes. Just upload your JPEG panoramas and start clicking a few buttons. CSI:360 does it all for you... automatically.

## CSI:360 Works with Your Existing Cameras

VPIx CSI:360 Crime Scene Recreation software lets you use your existing digital cameras and existing police officers. No expensive equipment. **For the single purchase of just (1) Panoscan, your entire department could have ten (10) CSI:360 upgrade kits and a CSI:360 crime scene server.**

CSI:360 is simply the fastest and most affordable way to recreate crime scenes or photo-document schools and buildings.

Putting away the bad guys was never this much fun or this powerful. CSI:360 software was designed from the ground up by a group of seasoned detectives and police officers. **Learn more and get a free no obligation demo today.**
